CONFIDENTIAL WORK PRODUCT

TO WHOM IT MAY CONCERN:

It is my pleasure to write a letter of reference on behalf of Robert Kresson, CEO of Empire Investigations LLC, located at 4250 Steubenville Pike, Pittsburgh, PA 15205. For over thirty years my firm has handled private investigative assignments involving criminal, civil and domestic matters, both nationally and internationally. During that period of time, when we needed to reach out to a firm with state of the art surveillance equipment and experienced investigators, Empire Investigations discreetly and professionally fulfilled our needs and obtained the sensitive information required. Mr. Kresson and his teams also conducted numerous TSCM sweeps and threat assessments for our firm's clients, ensuring the legitimacy and security of their homes, businesses and communications.

As the former President and Chairman of the Council of International Investigators, it was again a distinct pleasure to be able to meet with Robert Kresson on a professional and social level. He devoted himself completely to the promotion and goals of this international association, reaching out and involving others in a team effort.

My retirement from the world of private investigations began at the end of October 2014. It has been an extremely rewarding and interesting career from law enforcement to own an investigative agency, but now is the time to explore other avenues.

Please do not hesitate to contact me if you have any questions about Mr. Kresson or Empire Investigations LLC.

Sincerely,

Joan M. Beach Reistetter,

President
